Topics for Grad students

Summary

Select a topic from the following list. Write a report on the topic that includes information that would help someone or a company to decide whether they should use it. Describe the topic in your report, including the main features, how the topic relates to our course, what is required for using it, advantages and disadvantages, pricing if appropriate. Send your selected topic by e-mail. I will reply to select another topic if already 4 students have selected your desired topic.
